Teamo

TEAM MONEY

panemu

We Deliver IT Solutions With Creative Idea

Team Money is a collaboration application for a team that wants to take note's finances openly. Each team member can see who is carrying the money how much, for what expenses is the money used, and who is spend it. Transactions that are recorded can be searched by date, description, type of transaction, tags, and other attributes. Users can also export transaction data to spreadsheets and edit them in a spreadsheet application such as Excel.
